<MONTHLY TAX PAYMENTS> Pay by December 2nd

11がつ の のうぜい National Health Insurance [Kokumin Kenkou Hoken]

Shuu-zei ka Tel.0595-22-9612

What is Year-End Tax Adjustment (*nenmatsu chousei*) ? ねんまつ ちょうせい に ついて

When companies calculate the monthly salaries of their employees, they calculate the amount of income tax that should be levied based on salary, social insurance payments and the number of dependents. This income tax is then deducted when the salary is paid. This is called 'tax deduction at source' (*gensen choushuu*).

However, the amount of income tax deducted each month is only a temporary figure, and the actual amount of income tax that is due to be paid is calculated at the end of each year. This means that you may actually have to pay more in tax than based on your monthly salary, or it might be the case that based on your monthly salary calculations you have been paying too much, and so are due a tax refund. This process, called 'year-end tax adjustment', takes place at the end of every calendar year. Why do adjustments need to be made?

- Reason 1: Your 'tax deduction at source' (gensen choushuu hyou) certificate is calculated on the assumption that your monthly salary does not change throughout the year, but in reality your salary might have changed throughout the course of the year, especially if you have switched jobs. The tax deduction at source system is the deduction of income tax from your salary, and this is the system used to pay tax in Japan.
- Reason 2: Throughout the course of the year, there may have been changes in the number of dependents, in which cases the amount of income tax you need to pay will also change.
- Reason 3: Life insurance and earthquake insurance are deducted in the year-end tax adjustment. However, this deduction means that there is an upper limit on the amount that can be deducted from income.

National Pension

こくみん ねんきん の はなし

When you declare the residence tax and income tax, the full amount of your national pension premiums is subject to social insurance premium deduction (the premium payments you made from January 1st to December 31st of that particular year). In order to receive this social insurance premium deduction, you must attach proof that you have paid. For this reason, those who have paid national pension premiums between January 1st to September 30th will receive a 'social insurance (pension insurance) deduction certificate' from the Japan Pension Fund in early November. When filing tax returns or making year-end adjustments, this certificate (or receipt) must be attached.

Also, this same certificate will be sent to those who paid national pension insurance for the first time this year between October 1st and December 31st in early February of next year. It should be noted that if you paid national pension insurance fees for any family members, the same members can be added to your social insurance premium deduction. In order to do this, be sure to attach their deduction certificates, too. For queries regarding the 'social insurance (national pension insurance) deduction certificate' please call the number written on the deduction certificate postcard.
